

My Journey with Alzheimer's

Saturday, May 4 at 10:30 a.m.

Corinne Costin Gibson Memorial
Public Library Meeting Room

Katy Mackay will present this program: *"It's been more than a decade since my mother missed our rendezvous and I was awakened to the reality of Alzheimer's. In those years, we have marched through every stage of the disease, mastering practical solutions, overcoming mistakes, and using creativity to navigate advancing dementia."*

If you are touched by this difficult disease, join Katy to explore practical tips, creative coping mechanisms, and even the lesson-filled failures that served her and her mother along their journey.

Program is free and open to the public.
